

# CRM Gadget<sup>2</sup> Go

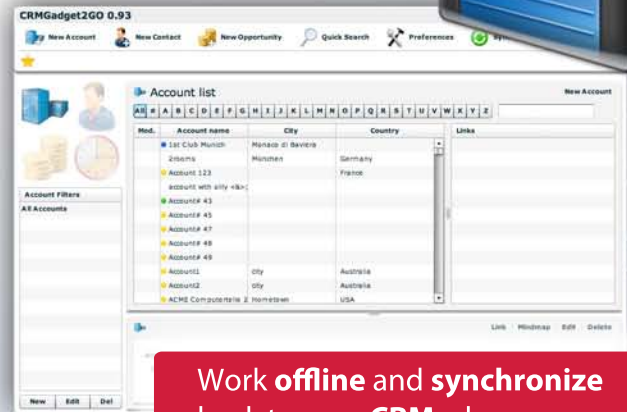

## The CRM Gadget Desktop Version for Oracle CRM On Demand.

CRM Gadget 2 Go is an offline client for Oracle CRM On Demand.

Use it without internet connection, access and maintain your CRM data from wherever you are and synchronize back to your CRM On Demand when you are back in the office.

With CRM Gadget 2 Go you can maintain your CRM data like Accounts, Contacts, Opportunities and Activities with a smart user interface and full offline functionality.

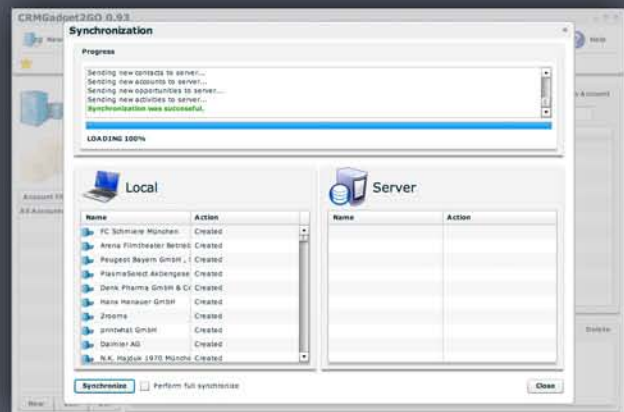

Work **offline** and **synchronize** back to your **CRM** when you are back in your office.

Unique features to make your CRM even more productive.

## Synchronize.

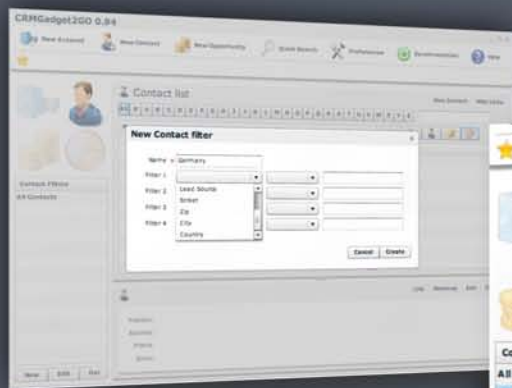

CRM Gadget 2 Go allows you to maintain your CRM data offline, for example on customer site or on travel. Synchronize the changes you did to your Oracle CRM On Demand.

## Layout Manager.

Create your own filters and bookmark them as favorites.

Customize the user interface individually for your needs.

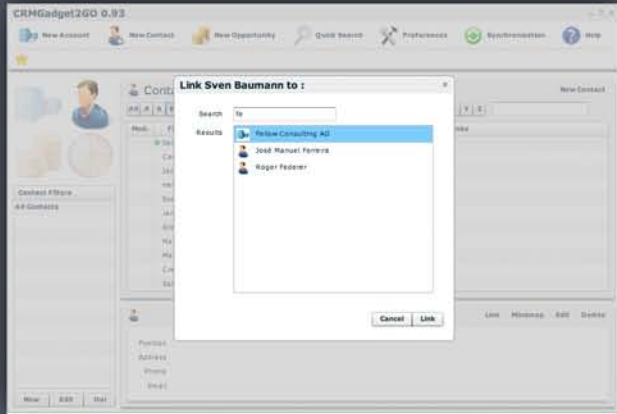

## Smart Navigation.

Drag-and-drop functionality and extended hyperlinks offer great usability.
